Summary

B.Tech Computer Science Engineering graduate with specialization in Artificial Intelligence and Machine Learning from Vel Tech Rangarajan Dr. Sagunthala RD Institute of Science and Technology. Skilled in Python, MYSQL, Java, Machine Learning, Data Analysis, and Web Technologies. Passionate about developing innovative AI-driven and data-driven solutions.

Education

Vel Tech Rangarajan Dr.Sagunthala R&D Institute of Science and Technology — Chennai, Tamil Nadu
B.Tech in Computer Science (AI & ML) — *August 2022 – April 2026*

Sri Chaitanya Junior College — Vijayawada, Andhra Pradesh
Intermediate (MPC) — *June 2020 – May 2022*

Projects

Crop Recommendation System using Machine Learning

- **Technologies Used:** Python, Machine Learning, Random Forest
- **Methodology:**
  - Preprocessed agricultural datasets using data cleaning and feature engineering
  - Trained a Random Forest model using soil and climate parameters
  - Recommended suitable crops with an accuracy of 85% for better agricultural decision-making

Large Scale Web Application Deployment

- **Technologies Used:** AWS EC2, AWS S3, Cloud Computing
- **Methodology:**
  - Designed and deployed a scalable web application using AWS cloud services
  - Improved system performance through load balancing and optimized storage management
  - Ensured reliable handling of high user traffic with efficient cloud infrastructure

Brain Tumor Detection using Deep Learning

- **Technologies Used:** YOLOv11, CNN, Deep Learning, Python
- **Methodology:**
  - Preprocessed MRI image datasets using image enhancement and normalization techniques
  - Trained YOLOv11 and CNN models for accurate brain tumor detection
  - Improved automated diagnosis performance using computer vision and deep learning techniques

Publications

A Multi-stage Hybrid Deep Learning Model for Brain Tumor Classification

- Presented at *2026 International Conference on Smart Futuristic Technology (ICSFT)*
  - Developed a deep learning model using CNN and YOLO for brain tumor detection from MRI images
  - Applied data preprocessing, augmentation, and model evaluation techniques to improve performance
  - Enhanced automated diagnosis accuracy using computer vision approaches

Technical Skills

- **Languages:** Python, Java, SQL (Postgres), JavaScript, HTML/CSS
- **Frameworks:** React, Node.js
- **Developer Tools:** Git, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse
- **Libraries:** Pandas, NumPy, Matplotlib

Certifications

- **AWS** – AI&ML Cloud GenAI Virtual Internship
- **Oracle** – Generative AI and Data Science Professional
- **Google Cloud** – Google Cloud Arcade Study Jam Cohort 2 Certified
